

Effectively Demonstrate Altivar Drive Capabilities with Ready-to-Order Demo Cases.

Portable, flexible, and functional drives demo cases

The new AC drives demonstration cases provide you the flexibility and functionality you need to demonstrate the capabilities of the complete range of Altivar™ variable-speed drives.

ATVFLEXDEMO02

The Complete System

- **ATVFLEXDEMO01:** The complete set of ATVFLEXDEMO02 and ATVFLEXDEMO03, providing the ability to demonstrate the capabilities of any of the six Altivar variable-speed drives

Simulator Demo Case

- **ATVFLEXDEMO02:** A simulator control panel Altivar demo “box” with pushbutton, pilot lights, simulator I/O, Altivar keypad, and miscellaneous controls; prewired with pigtail connectors to connect one of six pre-wired Altivar drives supplied in ATVFLEXDEMO03; wiring detail provided with instructions and demo examples

Drive Demo Module Case

- **ATVFLEXDEMO03:** A storage and shipping case complete with the full set of six Altivar drives, mounted with the backplanes and quick-connect wiring for use in the ATVFLEXDEMO02 Simulator Demo Case; also includes the Simple Loader and Multi-Loader programming accessories*

* Each demo case may be purchased separately and are available for order entry in Q2C in October 2013.

ATVFLEXDEMO03
