

Alternative for standard locking system for S3X enclosures with double door

19/08/2015

Christophe BIASCH

- For the installation of an alternative to the standard lock from S3X enclosures with double doors by a lock with another number of key.
- it is necessary to replace the escutcheon by the handle reference NSYMCSX.
- Example of DIN barrel usable on handle reference NSYMCSX
 - DIN barrel made by JMP Diffusion type 1327/999
 - DIN barrel made by EMKA type 1109-U1-N

- Dimensions of DIN barrel usable on handle reference NSYMCSX
