Change Notice Information Announcement

Obsolescence Overview:

Following the launch of new IFM reference LV434000 in October 2017 for North America, existing reference STRV00210 will be fully substituted by it, in 2017-18. The new reference supports all Firmware features of existing reference and will additionally include some hardware enhancements:

- Standard RJ45 connector for Modbus-SL interface
 - To ensure plug & play connectivity
 - To avoid wiring errors that help in time & cost saving for our Partners & Customers.
- Enhances EMC robustness and Modbus insulation
- Compatible with the following ranges of LV circuit breakers:
 - Masterpact NT circuit breakers
 - Masterpact NW circuit breakers
 - PowerPact P-frame circuit breakers
 - PowerPact R-frame circuit breakers
 - PowerPact H-frame circuit breakers
 - PowerPact J-frame circuit breakers
 - PowerPact L-frame circuit breakers
 - Compact NS1600b-3200 circuit breakers
 - Compact NS630b-1600 circuit breakers
 - Compact NSX100-630 circuit breakers

The new IFM reference is capable to integrate within the Smart System architecture.

Online Tools – Product Selection & Order:

The possibility to select/ order existing or new reference of IFM module is available in the tools until Last-Buy date. Post this date it will be restricted to only new reference.

Contact:

Questions about the transition to new reference of IFM module should be directed to your local Schneider Electric Field Sales Office.
