for iME3135	+13 to obtain YY		14					
for iME3235	-17 to obtain YY							
for iME3335	-47 to obtain YY							

This was made for technical reasons, to differentiate one 3135 from one 3235 manufactured the same day. YY would have been the same.
And using the "15" value would not give the YY neither
