

# Compact CM: complementary technical information

## tripping curves

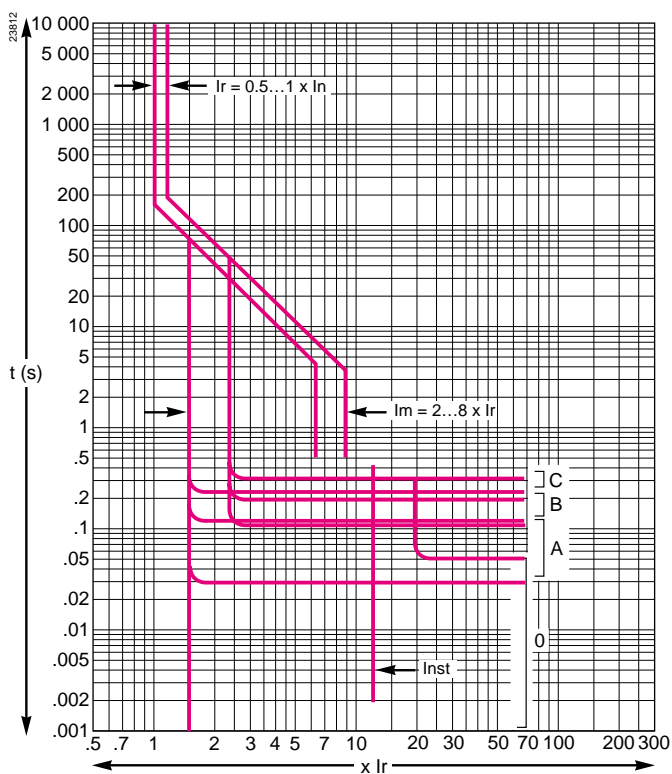

### Legend

**I:** instantaneous protection threshold  
**I<sub>r</sub>:** LT long time protection threshold  
**I<sub>m</sub>:** ST short time protection threshold  
**0-A-B-C** time delay settings for ST protection  
**INST:** instantaneous threshold: 35 kA  
 (plotted for the ST-CM2 and ST-CM3 for the 2500 rating)  
**I<sub>h</sub>:** earth fault protection threshold  
**0-0.1-0.2-0.3** time delay settings for earth fault protection

### ST-CM1

### ST-CM2 and ST-CM3

### ST-CM3
