

TeSys contactors
 Mini-contactors TeSys LC1 SK
 and LP1 SK

Use in category AC-3 (Ue ≤ 440 V)

Control of 3-phase asynchronous squirrel cage motors with breaking whilst running.

The current broken (Ic) in category AC-3 is equal to the rated operational current (Ie) of the motor.

Use in category AC-1 (Ue ≤ 440 V)

Control of resistive circuits (cos φ ≥ 0.95).

The current broken (Ic) in category AC-1 is equal to the current (Ie) normally drawn by the load.
