

**5.7.2 XBTGT Series Printers**

Printer Type	Target Connection
HP PCL3 (Most HP PhotoSmart, HP DeskJet series printers) Confirm functionality with the printer you intend to use.	USB, USB-PIO, LPR, IPP NOTE
HP PCL5 (Most HP LaserJet series printers) Confirm functionality with the printer you intend to use.	■ XBTGT 1105, 2110, 2120, and 2220 only support USB and USB-PIO for HP PCL3 and HP PCL5. ■ Use commercially available printer cables.
Epson ESC/P command compatible	COM1, USB-PIO, LPR, IPP NOTE
Text (ASCII) supported printer	■ Use commercially available printer cables. ■ On XBTGT targets, it is not possible to use COM1 port for both the script driver and the target printer. If you do have both set to COM1, both will fail to print in runtime.

NOTE

- For information on the run-time printing features supported for each printer type, see Section 27.1.5, [Printing Features Supported by Printers](#).
