

施耐德配電箱安裝指南

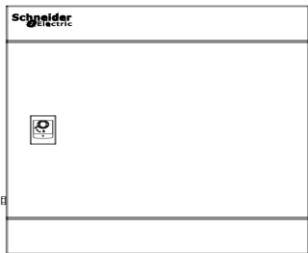

Schneider Electrical Distribution Board Installation Guide

此項工作必須由合資格的電力工程人員進行

This work must be carried out by qualified electrical engineers.

1. 打開配電箱

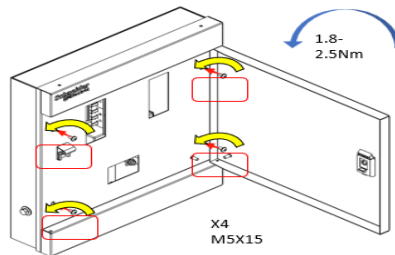

Open the door

向下按黑色門鎖，打開配電箱。
Press the door lock in black to
open the distribution board.

2. 拆除配電箱的門蓋

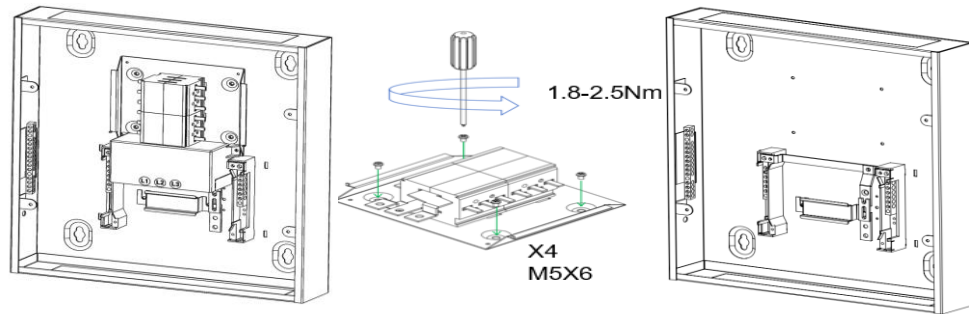

Remove the distribution board cover

按照圖片指示，把門蓋拆下來。
Follow the instructions to
remove the cover.

3 如需要在箱體開孔

If modifications to the enclosure require drilling holes

a) 按照圖示，拆除排骨盤。

Follow the instructions to remove the electrical components.

b) 完成開孔後，請確保電箱內部沒有殘留任何灰塵、鐵粉及其他物料
⚠ 否則有機會引致電力短路。

After drilling, ensure that the distribution board is free of dust, metal shavings, or any other debris, as these contaminants may lead to a short circuit.

c) 根據步驟1-3，把電箱組裝回原型。

Reassemble the distribution board by following steps 1 to 3.
