

施耐德配電箱安裝指南 (BF3 MCCB Board)

Schneider Electrical Distribution Board Installation Guide

此項工作必須由合資格的電力工程人員進行
This work must be carried out by qualified electrical engineers.

1. 拆除配電箱的門蓋

Remove the distribution board cover

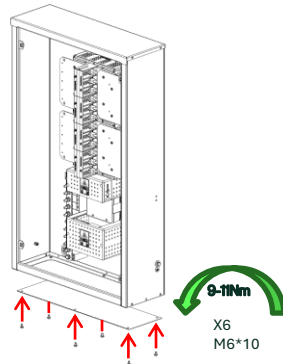

按照圖片指示，把門蓋拆下來。

Follow the instructions to remove the cover.

2. 如需要在電箱底蓋開孔

If modifications to the bottom cover plate require drilling holes

a) 按照圖示，拆除電箱底蓋。

Follow the instructions to remove the bottom cover plate.

b) 完成開孔後，請確保電箱內部沒有殘留任何灰塵、鐵粉及其他物料

⚠ 否則有機會引致電力短路。

After drilling, ensure that the distribution board is free of dust, metal shavings, or any other debris

⚠ as these contaminants may lead to a short circuit.

c) 根據步驟1-2，把電箱組裝回原型。

Reassemble the distribution board by following steps 1 to 2.

Additional Information

- a) 若門已上鎖，請用鎖匙先開鎖
(插入鎖匙往順時針方向轉動
180°)
If the door is locked, use the key
to unlock it (insert the key and
turn it 180° clockwise).

- b) 確定沒有上鎖后，按在此位置（三角
形標誌）向下推動，待鎖柄彈出。
After confirming the door is unlocked,
press down at this position (marked with
a triangle) until the handle pops out.

- c) 鎖柄彈出后，拿著鎖柄往逆時針方向轉動
90°（如圖所示）
Once the handle has popped out, grasp it
and turn 90° counterclockwise (as shown
in
the illustration).
