

SOFTWARE UPDATE ÜBERBLICK

How to know if my product is a 16mo or 128mo board

Only **EVlink Parking** with a date code greater than 15271 and **City** with a date code greater than 15291 have 128mo boards compatible with the last Software release R5 3101.

Please note that all **Smart Wallbox** have **128mo boards**: EVB...are compatible with Software release R5 3101.

See example below date code 15275

Or check in the Maintenance report that your boards are 16mo (0 to 10) or 128mo (11 to ...)

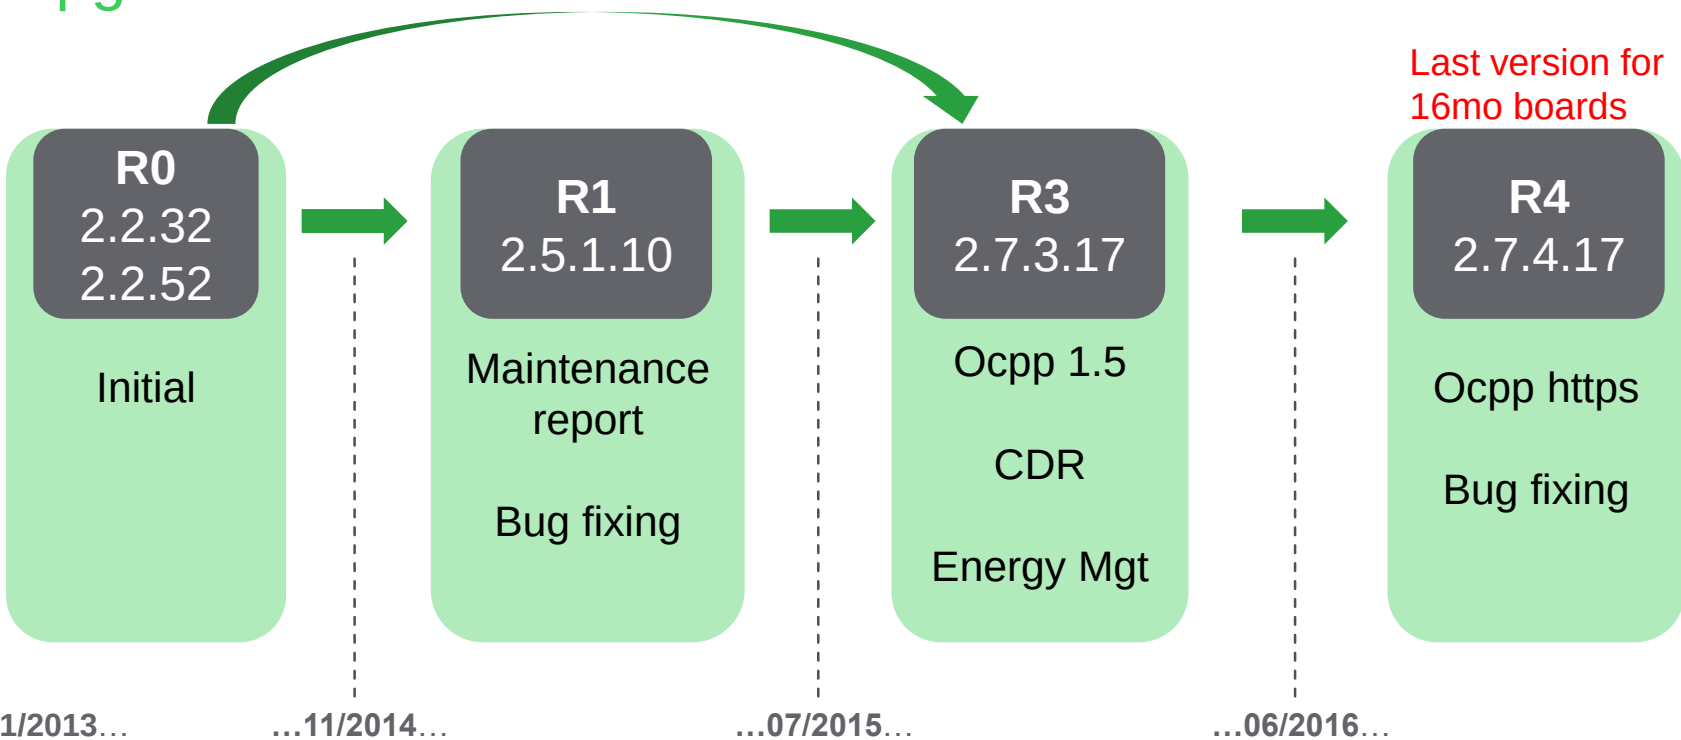

Product Number

	Plug #4	Plug #5
Commercial Ref	EV.2S22P22R	EV.2S22P22R
